ABSTRACTED-PUB-NO: KR 9208161B

BASIC-ABSTRACT:

A method for preparing stabilised oral omeprazole compsn. comprises (a) mixing omeprazole with water soluble basic amino acid as a stabilising agent and another conventional additives to obtain stable central core, (b) prim.-coating the core with water soluble polymer, and (c) sec.-coating it with enteric coating material. The stabilising agent is selected from margarine, lysine, or histidine, and the molar ratio of the stabilising agent to omeprazole is 0.1-5. Omeprazole is a gastric secretion inhibitor.
